Experience

Mobile Application Developer (Flutter) | NyurTech - SRINAGAR | 05/2025 - Current

- Engineered **Muslim calendar** application delivering access to Hijri calendar, prayer times, Qibla direction, notifications, and events
- Bulluin application**, handled gold buying and selling operations at Bulluin, ensuring secure transactions, accurate pricing, and excellent customer service

Mobile Front-End Developer (Flutter) | Helprush | 11/2024 - 04/2025

- Transformed the delivery and management of on-demand services through an innovative technology platform, **RushPro**.
- Achieved widespread availability and adoption with the app launch on the Google Play Store.
- Collaborated closely with back-end developers to ensure seamless data integration and functionality across platforms.

Mobile Front-End Developer (Flutter) | FASTBETTLE - SRINAGAR | 05/2022 - 10/2024

- Facilitated seamless parcel sending and tracking through **FastBeetle Customer App**.
- Delivered fast, reliable shipment management with real-time tracking and instant notifications.
- Enabled delivery partners to optimize routes and manage orders using **FastBeetle Rider Plus App**.
- Streamlined earnings tracking for delivery partners to ensure timely deliveries.
- Provided secure digital payment solutions through **DubaiPe** for recharges and bill payments.
- Supported crypto-based transactions within DubaiPe for enhanced versatility.

- Achieved availability of apps on App Store and Google Play Store for user accessibility.
- Ensured user-friendly experiences across all applications with efficient functionalities.

Mobile Front-End Internship (Flutter) | RECIMOTECH SOLUTIONS | 09/2021 - 04/2022

- **Multi-Vendor Food Delivery App**

- It allows restaurants and food vendors to upload menus, manage dishes, and handle orders efficiently.
- Worked on one Snap multi-vendor food delivery app.
- Customers can browse nearby vendors, place orders, make secure payments, and track deliveries in real time through a smooth, user-friendly interface.

Education

KASHMIR UNIVERSITY | Kashmir | 09/2022

BACHELORS IN ENGINEERING: CSE

Projects

- **Book My Appointment** is a clinical appointment booking platform with separate apps for users and clinics
- **Central University of Kashmir** app implemented robust features, including online attendance tracking and live classes functionality, enhancing user engagement and productivity
- **SpeedyKart** application: SpeedyKart is a one-stop online shopping app offering a wide range of products across categories
- **AI Chatbot**, Developed a context-aware AI chatbot using OpenAI with real-time communication using WebSockets.
- **Breeders Hub** developed an e-commerce app where customers can buy pet food and book services for their pets with ease
